Hugo Luna

Systems & Infrastructure Specialist | C++ & Reverse Engineering |
Linux Hardening | AI Infrastructure & MCP
Dallas-Fort Worth Metroplex

Summary

Systems & Infrastructure Specialist with 8+ years of hands-on experience across endpoint network administration, Linux device hardening (Ubuntu 24.04, Android kiosk mode), enterprise incident response (Amazon Tier 2), and AI edge architecture. Autodidactic engineer who jumped into C++ reverse engineering to co-lead DaedalusX64, an open-source Nintendo 64 emulator for portable devices that achieved millions of global downloads. Experienced in managing 170+ physical display nodes, hardening legacy hardware, and deploying live Model Context Protocol (MCP) servers on Cloudflare Workers. Google Cybersecurity Certified. Pursuing CISSP. Bilingual in English and Spanish. Core Competencies:

- Systems & OS: Linux (Ubuntu 24.04), Android Kiosk Mode, Windows, PowerShell, Bash
- Cloud & AI: Cloudflare Workers, Model Context Protocol (MCP), TypeScript, REST APIs, JSON-LD
- Programming: C++, JavaScript, TypeScript, HTML/CSS, Git
- Security & IR: Endpoint Hardening, Tier 2 Incident Response, Device Lifecycle Management

Experience

The Dallas World Aquarium

Systems & A/V Infrastructure Specialist

June 2024 - Present (2 years 3 months)

Dallas, TX

- Administer and maintain 170+ digital display endpoints, kiosk devices, and media delivery systems facility-wide.
- Hardened legacy Windows Surface tablets and PC sticks by migrating and configuring Ubuntu Linux 24.04 kiosk environments for improved security and operational stability.
- Configured Samsung/Android devices in locked-down kiosk mode running automated, looping media feeds.
- Produced and optimized video content using DaVinci Resolve for seamless, perfect-loop playback on Beetrionics displays.

- Assist internal IT team on endpoint security updates, network troubleshooting, and security camera footage verification.

Clay Cooley Nissan Irving

Asset & Supply Chain Logistics Specialist

March 2023 - August 2023 (6 months)

Irving, Texas, United States

Managed physical asset lifecycles, inventory auditing, and supply chain integrity protocols.

Conducted regular cycle counts and utilized enterprise resource planning software (CDK) to resolve data discrepancies and maintain strict inventory accuracy.

Amazon

Tier 2 Incident Response & Escalation Lead

April 2020 - May 2022 (2 years 2 months)

United States

- Managed Tier 2 incident response across distributed networks, diagnosing OS, hardware, and networking failures.
- Enforced SLA compliance and escalated critical system faults to backend engineering teams.
- Mentored Tier 1 personnel, reducing escalation rates through standardized troubleshooting methodologies.

The Dallas World Aquarium

Education Coordinator & Logistics

October 2015 - September 2020 (5 years)

Dallas/Fort Worth Area

Deployed and managed 58+ enterprise endpoints including screens, tablets, and display systems.

Performed hardware remediation and network restoration for compromised field equipment.
